

Assembly & Installation Guide

What's included:

- Desk Base (1)
- Screws (2)
- Bumpers (4)

What's Needed:

- Philips Screwdriver
- Glue (optional)

Safety Note: The Stamp-n-Storage Desk Base is one part of your overall desk design, and will provide sturdy support for our desk. However, each work area design is unique and it is your responsibility to ensure that your desk is securely supported both for your own safety and to protect your valuable supplies. Be sure to review our Idea Book & Design Guide for more details (available at www.stampnstorage.com/desk).

Assembly:

- OPTIONAL: For a permanent, very secure connection between the Desk Base and your work surface, apply a bead of glue along the side and back edges. **(A)**
- Place your work surface on top of the Desk Base and carefully make sure everything is in the location you desire.
- Install screws (2) through the holes in the top cabinet into your work surface. **(B)**
- OPTIONAL: Use longer screws for a more secure connection.
- OPTIONAL: If there is a slight difference in height between the Desk Base and other supports below your desk (like the IKEA Alex Drawer), use the supplied thin bumpers to even them out.
